

Camp Celiac Camper Health Disclaimer:

The goal of Camp Celiac is to provide a healthy and nurturing environment for children with a focus on Celiac Disease specifically. While we at Camp Celiac would like to care for as many children as possible, we are not staffed or trained to handle significant physical, emotional, or behavioral issues that would detract from providing care to our population as a whole. This is a volunteer-staffed camp and our staffing resources are not at the appropriate level to best care for a child with significant issues. Please use your best judgment to determine if Camp Celiac is the right environment to meet your child's needs. Camp Celiac is a 501(c)3 non-profit organization run entirely by volunteers. Investment in time and resources has already been made before camp starts, so if you are asked to pick up your child during camp week, your camper's tuition will not be refunded.
